This document describes the selection process and responsibilities for both the FCI world team and the FMBB (international Malinois breed organization) world team. The criteria written herein for the FMBB world team would also apply to any other breed specific world team. However, we only know details for the FMBB world championship application process, and therefore the FMBB is the only breed specific world event referenced. As other international breed organizations develop Mondioring championships, those details will be included.

# WORLD TEAM SELECTION CRITERIA

(Updated December 2020)

*their position on the World Team that decides to re-apply, will be placed at the end of the waiting list.*

## Team Selection Criteria

1. For FCI World Team: If the winner of the USMRA National Championship at Level 3 (MR3) attains a passing score at the National Championship, they will automatically be selected as one of the team members for that year's FCI World Team to compete at the FCI World Championship. *The winner of the National Championship at levels MR1 and MR2 will not automatically be selected for that year's FCI World Team. They will need to qualify via the below Main Criteria or Step Down Criteria.*
2. **Score and Title Requirements:** During the qualifying period, an MR3 team must have earned at least one score of 320 or higher. An MR2 team must have earned at least one score of 240 or higher and must have an MR2 title. An MR1 team must have earned at least one score of 160 or higher and must have an MR1 title.

### 3. Period for Qualifying Scores

- a. FCI: the one year period prior to declarations being due: currently July 16th - July 15th
- b. FMBB: the one year period prior to declarations being due: currently January 1st - December 31st

### 4. Requirements for Club Trial Scores

The following requirements apply *only to* the Club Trial Scores which are to be used for qualifying (in both the Main Qualifying Criteria and the Step Down Qualifying Criteria).

- a. Scores must be obtained within the qualifying time period (see #3 above, entitled "Period for Qualifying Scores")
- b. One decoy may only be repeatedly used at two of the different club trials
- c. One judge may only be repeatedly used at two of the different club trials
- d. The submitted club trials must be held on different field locations. There must be a minimum distance of 25 miles between each field you compete on
- e. Club trials must be organized by different clubs
- f. At the USMRA Board of Directors and International Committee's discretion, one score from another country may be allowed to substitute for a club trial score.

# WORLD TEAM SELECTION CRITERIA

(Updated December 2020)

These requirements do not apply to the National Championship; for example, *if you attend a club trial that has the same decoy as Nationals, your score will still be allowed.*

## Main Qualifying Criteria Formulas

FCI Main Qualifying Formula: Competing in either the USMRA National Championship, FMBB Championship, Dutch Shepherd Championship or any other world Mondioring Championship, that takes place during the qualifying period, is mandatory if you are applying utilizing this FCI Main Qualifying Criteria Formula.

If a competitor competes at the USMRA National Championship, that is the score that is used regardless of if they competed at the FMBB Championship, Dutch Shepherd Championship or any other world Mondioring Championship. However, if a competitor only competes at a world championship (currently just FMBB or Dutch Shepherd) that score may be used in lieu of a USMRA National Championship score.

Team selection will be by ranking a weighted average score of 2 Club Trial scores and the National Championship score, applying a coefficient of 4 to the National Championship score. The Club Trial scores will be the two highest *passing* scores from USMRA Club trials that meet the requirements for club trial scores (*see #4 above, entitled "Requirements for Submitted Club Trial Scores"*). Weighted average score = (Club Trial Score 1 + Club Trial Score 2 + 4xNational Championship Score) ÷ 6. The weighted average score will be ranked from highest to lowest with others meeting this criterion.

FMBB Main Qualifying Formula: Team selection will be by the mean average of three scores, all at the level that you are applying to compete. The USMRA National Championship score may be used even if it is not a passing score. All USMRA Club trial scores used must be passing scores that meet the requirements for club trial scores (*see #4 above, entitled "Requirements for Submitted Club Trial Scores"*). Mean average = (Trial Score 1 + Trial Score 2 + Trial Score 3) ÷ 3. The mean average of the three scores will be ranked from highest to lowest with others meeting this criterion.

## Step Down Criteria Formulas

In cases where the World Team cannot be filled utilizing the Main Qualifying Criteria, the International Committee will have the right to recommend additional team members using the following Step Down Criteria for team selection (below).

FCI Step Down Criteria Formulas:

1. **Members that attended Nationals that have two club scores**, either passing or non-passing, that meet the requirements for club trial scores (*see #4 above, entitled "Requirements for Submitted Club Trial Scores"*). Team selection will be by a weighted

# WORLD TEAM SELECTION CRITERIA

(Updated December 2020)

average of the three scores applying a coefficient of 4 to the National Championship score. Weighted average score = (Club Trial Score 1 + Club Trial Score 2 + 4xNational Championship Score) ÷ 6. The weighted average score will be ranked from highest to lowest with others meeting this criterion and then will be ranked in that order below the qualifiers meeting the Main Qualifying Criteria.

2. **Members that attended Nationals and have only one club score**, either passing or non-passing, that meet the requirements for club trial scores (*see #4 above, entitled "Requirements for Submitted Club Trial Scores"*). Team selection will be by the weighted average of one Club Trial and the National Championship score applying a coefficient of 2 to the National Championship score. Weighted average formula = (Club Trial Score + 2xNational Championship Score) ÷ 3. The weighted average scores will be ranked from highest to lowest with others meeting this criterion and then ranked in that order below the qualifiers meeting the #1 Step Down Criteria.
3. **Members that did not attend Nationals that have three club passing scores**, that meet the requirements for club trial scores (*see #4 above, entitled "Requirements for Submitted Club Trial Scores"*). Team selection will be by the mean average of the three scores. Mean average = (Trial Score 1 + Trial Score 2 + Trial Score 3) ÷ 3. The mean average scores will be ranked from highest to lowest with others meeting this criterion and then ranked in that order below the qualifiers meeting the #2 Step Down Criteria.
4. **Members that did not attend Nationals and have two club passing scores**, that meet the requirements for club trial scores (*see #4 above, entitled "Requirements for Submitted Club Trial Scores"*). Team selection will be by the mean average of the two scores. Mean average = (Trial Score 1 + Trial Score 2) ÷ 2. The mean average scores will be ranked from highest to lowest with others meeting this criterion and then ranked in that order below the qualifiers meeting the #3 Step Down Criteria.

FMBB Step Down Criteria Formulas:

**Members that have achieved three scores.** These scores may include 3 passing or non-passing club scores that meet the requirements for club trial scores (*see #4 above, entitled "Requirements for Submitted Club Trial Scores"*). Nationals can also count as one of the scores, but is not required. Team selection will be by the mean average of the three scores. Mean average = (Trial Score 1 + Trial Score 2 + Trial Score 3) ÷ 3. The mean average scores will be ranked from highest to lowest with others meeting this criterion and then will be ranked in that order below the qualifiers meeting the Main Qualifying Criteria.

**Members that have achieved two scores.** These scores may include 2 passing or non-passing club scores that meet the requirements for club trial scores (*see #4 above, entitled "Requirements for Submitted Club Trial Scores"*). Nationals can also count as one of the scores, but is not required. Team selection will be by the mean average of

# WORLD TEAM SELECTION CRITERIA

(Updated December 2020)

the two scores. Mean average = (Trial Score 1 + Trial Score 2) ÷ 2. The mean average two scores will be ranked from highest to lowest with others meeting this criterion and then ranked in that order below the others meeting the #1 Step Down Criteria.

## Tie Breakers

Tie Breakers for FCI Main Criteria and FCI Step Down #1 and #2: In the event of a tie of the weighted average score, the higher score at the National Championship will be the tie breaker. If the National Championship total score is also a tie, the higher total score of the protection exercises at the National Championship will be the tie breaker. If there is still a tie, the higher jump points at the National Championship would win, followed by higher obedience points, followed by the age of the dog where the younger dog would win.

Tie Breakers for FMBB Main Criteria, FMBB Step Down and FCI Step Down #3 and #4: In the event of a tie of the mean average score, the higher total score of the protection exercises of all scores used in the formula will be the tie breaker. If there is still a tie, the higher total jump points of all scores used in the formula would win, followed by higher total obedience points of all scores used in the formula, followed by the age of the dog where the younger dog would win.

## TEAM LEADER SELECTION

1. The Team Leader will be selected on the basis of experience and skills required. Preference will be given to an individual who has been a member of an international team.
